REMARKS

Claims 1-8 and 10-28 are currently pending in the present patent application. Reconsideration and allowance of the application is respectfully requested in view of the following remarks.

**Claim rejections – 35 USC §103**

In the report the Examiner rejected claims 1-8 and 19-24 under 35 U.S.C. 103(a) as being unpatentable by U.S. Patent No. 6,628,671 (hereinafter called Dynarski). Please note that independent claims 1 and 19 have been amended while claim 9 has been cancelled without prejudice to Applicant.

Claims 1 and 19 have been amended as proposed in the Examiner's report. In the report, the Examiner has indicated that he was willing to allow claims 9-18 and 25-28 if they are rewritten. Therefore, claims 1 and 19 have been amended in consideration of the limitations presented in claim 9. Additionally, claims 2-8 and 20-24, which depend directly or ultimately from claims 1 and 19 while adding further limitations thereto, are believed patentable for the same reasons provided in support of claims 1 and 19. Consequently, Applicants kindly request withdrawal of the rejection.

**Allowable Subject Matter**

In the report, the Examiner has indicated that he was willing to allow claims 9-18 and 25-28 if they are rewritten. Claim 9 has been canceled without prejudice made to Applicant. However, since claims 10-18 and 25-28 depend directly or ultimately from claims 1 and 19 while adding further limitations thereto, they are believed patentable for the same reasons provided in support of independent claims 1 and 19. Consequently, claims 10-18 and 25-28 do not need to be rewritten.

In view of the abovementioned remarks, Applicants respectfully request favorable action for all pending claims.
